

Queens Park Parade Independence Flats, Northampton

Our specially designed independent and care leavers flats welcome young people who have previously been in our residential care and those who have been placed elsewhere.

Location

The suburb of Kingsthorpe is in the north west of Northampton, and facilities are centred around the main roads between the town centre and Leicester. There is regular public transport outside the front door and easy access to colleges, shops, leisure and other facilities.

The Property

Our Queens Park Parade property provides 3 fully self contained flats. These flats have bathrooms, kitchens, living areas, are fully self contained and are decorated, furnished and equipped to a high standard.

Packages

- The accommodation is underpinned by 24 hour staff support and guidance as young people become more integrated into their community networks.
- We accept care leavers and young people who require support but wish to live independently. Using individual key working, each young person has a detailed independence plan and programme of support.
- As each of our supported living support services are individually packaged, costs can vary. We can provide additional enhanced support as required.
- The benefit of a package from Continuum Group Support Services ensures that features such as supervision, education, clinical assessment, transport and other support services can be included or not included in a tailored plan for the young person.
- The Continuum Group also aims to support the Placements Northwest Minimum Standards for Leaving Care Provision pilot to ensure delivery of quality services.
